

REACH – information

TRIMET Aluminium SE fulfils its obligation in accordance with the REACH Directive (Directive (EC) No. 1907/2006) for registering manufactured or imported substances with the European Chemicals Agency (ECHA) in a timely manner.

In addition, if further substances are imported or manufactured by TRIMET Aluminium SE, then these too will undergo REACH registration in a timely manner.

We also expect this from our suppliers and pre-suppliers.

Substances registered by TRIMET Aluminium SE in accordance with the REACH Directive:

Substance	Tonnage band	Registration Number
Aluminium	> 1000 t	01-2119529243-45-xxxx
Aluminiumoxide	> 1000 t	01-2119529248-35-xxxx
Silicon	> 1000 t	01-2119480401-47-xxxx
Copper	> 1000 t	01-2119480154-42-xxxx
Cryolite	> 1000 t	01-2119511565-43-xxxx
Magnesium	100 - 1000 t	01-2119537203-49-xxxx

Some of the alloys manufactured by TRIMET Aluminium SE may contain substances listed on the current version of ECHA's Candidate List in concentrations greater than 0.1% by weight.

Candidate List Substance	Date included
Lead (Pb)	27.06.2018

This applies to alloys in which lead is listed in the specification/material catalog. The lead content of the products delivered to you can be found in the supplied analysis.

Please note that products made from these alloys along the supply chain may also exceed the threshold of 0.1% by weight and thus lead to reporting requirements for you in accordance with the REACH Directive.

We will inform you about any future changes to our purchased or delivery products under the REACH Directive within the context of our business relationship, and in individual cases, coordinate appropriate measures with you.

Valid as of: September 2019
